

# FLATWARE

## Designs You Can Trust

We craft our flatware for high volume foodservice with the finest materials and highest standards. Each piece is perfectly weighted and balanced so it feels just right in the hand.

Both our Chef & Sommelier® and Arcoroc® brands offer flatware designs from casual to elegant, calling on our European design heritage in thoroughly modern ways.

Choose among high luster, high quality stainless steel, patina, oxidized or sand finishes—or request any pattern in either luxurious silverplate or a more contemporary brushed finish.

Industry standards 18/10 and 18/0 refer to the percentages of chrome (first number) and nickel (second) in the stainless steel alloy.

1. Chrome offers superior resistance to rusting, pitting and corrosion.
2. Nickel allows flatware to keep its color and luster longer.
