FEATURES

- Super-Automatic Two-step espresso machines offer exceptional quality in a variety of drinks with basic operator skill.
- Machine uses 45mm ESE Pod filters to pull the extraction, and the user mixes the steamed or frothed milk and other flavorings for each drink.
- Programmable Automatic SteamAir wand controls the temperature and foam time to create the perfect milk to add to each drink.
- Small skill required, making it ideal where quality and consistency are vital, despite multiple users or employee turnover.
- Programmable hot water dispenser for hot drinks.

- The touch screen offers programmable control of 48 drink recipes per grouphead.
- More control over amount and type of foam, froth, and milk in the drink.
- Steam non-coffee drinks like chai tea and hot chocolate.
- Programmable control of pre-infusion, and 6 volumetric water settings per grouphead.
- Quick clean cycles every 90 drinks; complete group auto clean cycle every 24 hours.
- Includes installation by a Grindmaster-Cecilware certified service provider and Purity C500 Water Filtration kit.
